UPDTE ON INFORMATION REGARDING THE COVID-19 PANDEMIC

During the 2020 golf season the TGC will be following the direction and guidance provided in the “Restoring Safe Services in Manitoba” for golf courses in Manitoba provided by regulatory authorities.

Our number one priority is the safety, health, and well-being of our staff and customers.

Key measures are being implemented by the TGC focussing on satisfying requirements for mitigation, which are physical-distancing, environmental cleaning, reduce crowding, and removing/mitigating high touch surfaces and services.

Inspections will be conducted by government authorities. Members and the public must abide by all contingency measures put into place, without exception. Failure to strictly abide by all requirements established by the TGC will result in disciplinary actions and can run the risk of closing the golf course operations.

The following information lists various changes, contingency measures, and procedures for the various operations at the TGC which are in place until further notice.

The modifications and changes listed above have been developed in accordance with guidance information provided by the governing federal, provincial, and municipal health regulatory agencies. Government inspection activities will be taking place and the consequences for failing an inspection can include closure of the golf course. As such the revised procedures must be strictly adhered to by everyone or we all run the risk of the golf course closing. As time goes by and regulatory requirements change, the TGC will review and revise our contingency plans and operations accordingly. For now, please familiarize yourself with these changes, and we will keep you advised of changes and updates. Don't be the one who causes the TGC to be closed once we have opened.

Stay healthy and safe and let's all do our part in limiting the spread of COVID-19 virus and keeping the golf club open for business during this phase of reopening businesses in Manitoba.
